

Standards Australia Update

Provide your feedback on Hub replacement

Standards Australia have contacted all committee members seeking feedback on the ongoing efforts to improve the contributor experience, we have commenced work to replace the current Standards Hub system. The first phase is a new dashboard, which will serve as the central information page for all committee members.

The proposed design has been developed in consultation with our Committee Members and Nominating Organisation representatives. We thank each one of them for their time and valuable contribution to this exciting project.

We ask you to complete a short [online survey](#) to provide your feedback on the proposed contributor dashboard design. The survey closes at **5pm on Tuesday 5 June 2018** to keep us on track with the project schedule.

Could all GAMAA members take the time to go online and have a look at proposed contributor dashboard.
