UPDATE GAMAA Technical Committee Meeting - Tuesday 21 April 2020

As previously noted in Gas Connections, Ross and I have been working on a solution to conduct this meeting albeit in an electronic format given our current social distancing requirements and gathering laws.

We have settled on using Microsoft Teams to conduct the meeting.

To that end, you will have noticed a meeting cancellation come through for the initial calendar invite and I have sent those who accepted a new Microsoft Teams invite to replace it.

The start time for the meeting has been changed from our normal 10am start to a 9.30 start (nothing is normal anymore!) and we hope to have the Agenda Items completed by 12.00 - 12.30.

If you declined or didn't action the original calendar invite and would like to now attend, please let me know and I will send a new "Teams" calendar invite to you.

Please note you do not need any new computer software to join this meeting

Please email jon.onley@aigroup.com.au if you have any questions.
